

Taking Science to the Sewer!

GLOBAL / ICEBEAR

We have developed our own line of trouble solving, every day nozzles, built on our collected know how through out the years. They are known as the Global and Icebear nozzles.

Short design with beveled edge, low jet angle for maximum thrusting power and with jet size adapted to pump capacity The Global is your best option when it comes to conventional nozzles.

3/8", 1/4", 1/2", 3/4" & 1", 1 1/4". The 1/2" has multiple size ports for different pressures and GPM. We have all Icebear nozzles and Global in stock. Multi-Global have stainless steel replaceable jets jetted to your unit at the time of purchase! Available sizes for Multi-Global are in 1/2", 3/4" and 1".
